Summary

Frontend Developer with professional experience building scalable web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Experienced in developing reusable components, integrating REST APIs, implementing responsive user interfaces, optimizing performance, and collaborating with product, design, and backend teams in Agile environments.

Education

B.E. in Computer Engineering, Islamic Azad University, Science and Research Branch
Tehran, Iran
Sept 2021 – Feb 2026

Experience

- Adak B2B SaaS Company**, Frontend Developer
Tehran, Iran
Apr 2025 – Feb 2026
11 months
- Developed responsive enterprise web applications using React.js, Next.js and TypeScript.
 - Built reusable UI components to improve development consistency and maintainability.
 - Integrated frontend with REST APIs using Axios.
 - Collaborated closely with backend developers, UI/UX designers and Product Owner.
 - Participated in code reviews and debugging to improve software quality.
 - Optimized application performance and reduced unnecessary re-renders.
 - Maintained scalable project architecture using Git and GitLab.
 - Participated in sprint planning and Agile development process.
- Vira Segal Karo (Internship)**, Frontend Developer
Tehran, Iran
Feb 2025 – Apr 2025
2 months
- Developed responsive web interfaces using React.js, TypeScript, and Tailwind CSS.
 - Implemented reusable and pixel-perfect UI components based on Figma designs.
 - Integrated frontend applications with REST APIs using Axios.
 - Fixed UI bugs and improved application performance and responsiveness.
 - Collaborated with senior frontend developers to implement and maintain client-facing features.

Skills

Programming Languages: JavaScript (ES6+), TypeScript
Frameworks: React.js, Next.js
State Management: Redux Toolkit, Zustand, React Query (TanStack Query)
Styling & UI: HTML5, CSS3, Tailwind CSS, Sass, Shadcn/UI, Ant Design
API & Data Fetching: REST API, Axios, GraphQL, React Hook Form
Development Concepts: Responsive Web Design, Reusable UI Components, REST API Integration, Component-Based Architecture, SPA, CSR, SSR, Progressive Web Apps (PWA), Internationalization (next-intl)
Tools: Git, GitLab, Storybook, Swagger, Prisma ORM, PostgreSQL, JSON Server, Cursor AI

Projects

Blueprint – Business Process Design Tool (Work Project)

- Developed the frontend of an enterprise business process design tool using React.js, Next.js, TypeScript, and Tailwind CSS.
- Designed reusable components for enterprise workflow management.
- Collaborated with the development team to implement AI-assisted process design features and improve user experience.

Tasklist – Progressive Web Application (Work Project)

- Delivered an offline-capable PWA for organizational task management.
- Developed a responsive PWA for task and workflow management using Next.js, TypeScript, and Tailwind CSS.
- Implemented task management features integrated with backend APIs.
- Optimized performance and user experience across desktop and mobile devices.

Adak B2B Platform (Work Project)

- Developed and maintained enterprise B2B web applications using Next.js, TypeScript, and Tailwind CSS.
- Built reusable UI components with Storybook and integrated frontend features with REST APIs.
- Collaborated with backend developers and UI/UX designers to deliver scalable, responsive, and maintainable business solutions.

Social Media Web Application (Personal Project)

- Built a full-stack social media application using Next.js, TypeScript, Prisma ORM, and PostgreSQL.
- Implemented authentication, internationalization (next-intl), and backend APIs.
- Designed a scalable architecture with both frontend and backend in a single Next.js application.
